

# WOODINGTON's in PNG

## Welcome to 2019

Imogen and Kiri live in Mount Isa  
Imogen has started the new year by  
moving from Emergency to the  
Surgical ward in Mt. Isa Hospital  
Kiri graduated in 2018 with a Masters  
and is working in Mt. Isa  
as a Dietician with Kiji Health

### The Men at Christmas

Arron and Tristan continue this year  
at University  
Aaron in Brisbane and Tristan In  
Melbourne

### The Newly Wed's First Christmas

We all spent Christmas in Mt. Isa which  
was a wonderful two weeks with the  
newlyweds extending our family to a  
magnificent seven!

# 2019 in Review

## **November, Paul re-Opened Kabori** In the Coastal Highlands, this remote village receives its first flight after being closed for 12 years

Kabori also received a new radio, a gift from MAF and CRMF. This strip is very short at 445 meters and sits in the coastal highlands often in rain and cloud

## **Can you spot Clare in this Sing Sing?**

**All of the villagers of this remote jungle location celebrate the installation of a new Radio financed by MAF and CRMF**

These villagers are so pleased to have a new radio. The cost with all the antennas is around 18,000 Kina, a gift from MAF and CRMF

## **Catch of the Day** **A Marlin Paul and Clare caught on a hand line.**

Clare and Paul escape from everyone and everything to this nearby Yueo Island off Wewak. This time we caught a Marlin on a hand line. This catch fed the whole island who are still talking about it.

## **Clare with our God Daughter Georgina** **Clare continues with sewing projects for national ladies and Pre-school for national children**

Each day, Clare invites the local children to pre-school at our house. She does their ABC, 123, and cooking together with all sorts of other activities

## **MEDEVAC (Medical Evacuation) almost daily** **Paul saved many children, men, and women, who needed rescuing from the Jungle**

Not only do we help with spiritual matters, but physical too. If MAF does not fly, people die. We fly seven days a week if necessary to rescue people from the hazards of Jungle existence. This little boy fell out of a tree whilst spearfishing and landed on his own spear. He lived after we flew him to Wewak Hospital

## **The Royal Wedding in July** **That is Imogen and Beau**

This was a wonderful family time. Extending our family with Beau's family. Imogen is now Imogen Mansbridge.

Many friends and family came from all over the globe to celebrate Imogen's special day.

## **Paul flew Tonnes of Medical Supplies and Flew Disaster Relief Flights** **PNG Suffered devastating Earthquakes in the Southern Highlands**

The year started with a volcano erupting off of Wewak where we live. The volcano is still pouring out volcanic ash 12 months later. This was shortly followed by huge earthquakes which we all felt, but the southern highlands were the worst affected. The disaster recovery flying is continuing. We are on 24-hour Tsunami alert here in Wewak.

## **Bad Weather forces Paul to have an overnight stay in Busilmin in the Highlands**

### **The view does not get better than this**

Not all flights continue to the end of the day. Just after lunch in the highlands, Paul landed to deliver disaster relief aid to this very remote village. However, the rains came immediately after landing and did not let up. Paul spent a night with the villagers after walking for 35 minutes through the jungle to their bush huts.

## **Bible sales increased dramatically in 2018**

### **We sell around 30 Bibles a day alongside Eyeglasses, Solar Audio Bibles, Concordances, and Jesus DVD's**

This ministry is one of the best. Supplying Bible to people who have no access to The Word is an example of the hunger for people have for Jesus and this ministry offers the hope they have been waiting for. For those who cannot read, we sell a Solar powered Audio Bible in Tok Pisin. All these products are sold at an affordable rate. MAF alongside CRMF pays the balance.

## **Missionaries**

### **This Missionary John Hutterman of New Tribes Mission is one of Paul's Frequent Flyer's last year**

Here in Wewak, we support many missions, large and small. New Tribes (NTM) is one of the largest whereas Pacific Inland Mission (PIM) are smaller and wholeheartedly dependant on us.

We fly many missionaries into the Jungle, supply them with a food lifeline, and medical evacuation

## **Outreach at ANAMAB**

**In November Paul and the outreach team visited ANAMAB where over 400 from surrounding villages came to worship together**

The local minister was in tears after the outpouring. He had never had such a

congregation. Paul partners with the CBC

Anguganak Bible School to reach a new generation of people who have not heard the gospel. We bring Bibles, the Jesus film in Tok Pisin, worship, but most of all we come with love to support them to walk a Christian walk

## **Pilot Bilong Miplea**

For those who know us, it will come as no big surprise that you know we are blessed with a passion to continue. To continue to help these people in the remote Jungles of PNG who have no one else, and even though each day we live a spiritual battle second to none, we are passionate to spend more time in the Jungle alongside them all. We cannot imagine what is in front of us this year, just that it will be hard, but worthwhile. However, we cannot do this alone. We need your help...

If you find yourself in a situation where you would like to help us and the people in the Jungles of PNG who call us "Pilot Bilong Miplea" (My Pilot) and would like to make a Donation, you can send a gift via the following link

<https://greatchristianadventure.com/donate/>

You cannot imagine how grateful each and everyone will be and how much it will help them in their daily physical and spiritual life.

# FAMILY FUN
