

A new home

In our last newsletter we still had some questions about where we were living, who would be renting our house in Perth and finalising the practical bits of our move.

God has been so good in this season -we have had some amazing helpers to get us down here and has provided again and again in ways we hadn't even thought to pray about!

Your continued support means the world to us — it's only by continued prayer that we are managing to do this. Thank you for uplifting us and continuing to walk this journey with us

Tim and Alice Dingwall xx

Visit www.maf-uk.org/dingwall to be sent to our official MAF page! Please feel free to pass it onto anyone you think would like to follow our journey or anyone you think may want to be involved in giving financially.

Enjoying fish and chips on the loch – our last evening in Scotland!

Happy Moving Crew – Arriving in Bournemouth

A Call to the Nation

'Rise up you people, be Holy and Free
Hearts with vision is His plea
Life with passion seeking on high is His
cry,

There's sign of revival - prepare the way
No time to lose for this is the day,
Christ the great healer and deliverer
In the fullness of His power
He is coming with Ministries of Fire'

Poem by Georgie Dixon

What are we thankful for?

Tim:

I'm settling in well to my new placement. I've got the opportunity to do lots of exciting jobs and am gradually filling out my aviation logbook*.

I feel like the college work and the placement work are helping all the puzzle pieces to fit together and I'm loving the practical side of being in the hanger everyday.

The Red Arrows flew out of Bournemouth airport! It was awesome to be able to watch them as they practise their different aerobatic tricks while they were stationed here over the summer festival period.

Alice:

I'm loving being back in the Emergency Department. I love the patient contact and having a more clinical role. I even got a hug off a patient the other day which made my day as she was very stressed when she first came in!

I'm loving being near the New Forest and seeing wild horses when we're out walking! I never can quite believe my eyes when we're walking and see a herd cross the road... Tim is a bit more nervous of them and likes to keep his distance.

Both of us:

We had such a bittersweet last weekend in Scotland. We were able to 'leave well' and received prayer from Trinity Church as we left (with all our furniture in the van in the

Red Arrow Display outside Tim's work

First day of work for both of us – outside our new flat!

Visit from Alice's parents

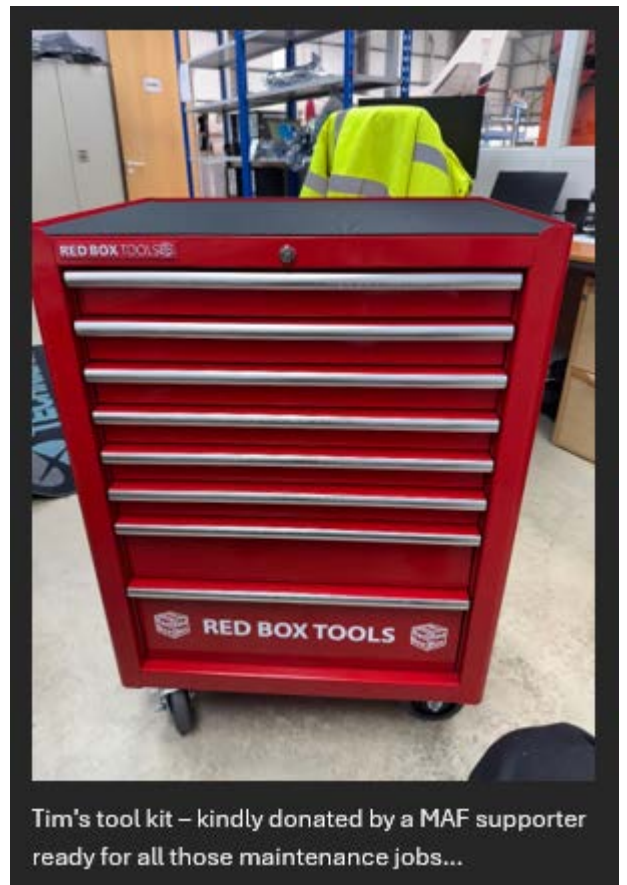

Special family time with some of our cousins

*Aviation logbook - an important document that Tim will need to get his license. It's essentially a record of every single maintenance job he does in the hanger!

How you can be praying for us

For continued relationships with our church community in Bournemouth For safety on the roads as Alice is cycling to work everyday (sometimes late at night due to being on shifts!) Please pray for Tim to have more opportunities to 'troubleshoot' maintenance problems on the aircraft he's servicing. It looks really good as log book evidence...Pray for an opportunity to visit Scotland and our friends up there soon. We are missing our pals a lot - and there's definitely been a season of grief leaving the people we love behind.

How you can be praying for MAF...

Please pray for MAF Ugandan programme, where we visited in April, as the Kajjansi Airfield's runway is getting upgraded

Please pray for families who were assigned to Haiti as the programme has been put on a prolonged pause. Pray as they enter the process of reassessment that they would find roles that they are suited to, and that God would help them to navigate this change. Please pray for the country as a whole during this time of civil unrest, that violence would come to an end.

Please pray for the expansion of a primary school in Guinea, that will enable more children to benefit from an education. Thank God that MAF is able to fly the project leader into the area, 600kms from the capital in Conakry to lead this amazing project.
